## Regeneration and Augmentation Techniques Course

Orlando, Florida  
March 9 - 10, 2012

Dentists who have attended AAID's Bone Grafting Course rave about the course. Here is what just a few have said:

"Exposed me to valuable information about bone grafting procedures that I need to know if I want to do implant dentistry."

"Great review of anatomy."

"Great clinical knowledge to be used and applied."

"Having the opportunity to try on cadaver heads what we were taught immediately after the lectures was invaluable."

"Instructors very knowledgeable, accessible, professional."

"Good teacher: student ratio"

Recognition Program

## Course Description

This course combines lectures and laboratory sessions featuring hands-on experience for bone and tissue grafting utilizing cadaver heads. The lectures focus on relevant head and neck anatomy, subantral grafts, ridge expansion techniques, soft tissue and osseous grafts, bone graft material classifications and indications, science of platelet rich plasma (PRP) and how to obtain PRP using a simple cost-effective technique, venipuncture techniques, and pertinent perioperative pharmacology. During the supervised laboratory sessions, participants will review anatomical landmarks and perform procedures demonstrated by the lecturers. Registrants will be provided a list of instruments to bring to the course.

## Course Objectives

At the end of the course, the participants will be able to:

- Recognize indications for bone grafting procedures.
- Recognize anatomical landmarks pertinent to implant placement and bone grafting procedures.
- Utilize the proper instrumentation for grafting procedures.
- Classify bone grafting and barrier materials and recognize indications for use of each type.
- Recognize potential complications of implant placement and bone grafting procedures.
- Apply clinical protocols for subantral augmentation (sinus lift) using lateral wall and Summer's techniques.
- Apply clinical protocols for piezo surgical techniques.
- Apply clinical protocols for ridge expansion techniques.
- Apply clinical protocols for soft tissue grafting and manipulation
- Acquire PRP and utilize it to maximize hard and soft tissue results.
- Develop a perioperative protocol for the pharmacological management of post-operative pain and infectious complications that may occur with soft tissue and bone grafting procedures.

## Faculty

**James L. Rutkowski, DMD, PhD**, is the course director. He maintains an implant practice in Clarion, Pennsylvania. A graduate of the University of Pittsburgh School of Dentistry and the Duquesne University School of Pharmacy, Dr. Rutkowski received his PhD degree in Pharmacology/Toxicology from Duquesne University in 2008. A Fellow of the AAID and a Diplomate of the American Board of Oral Implantology/Implant Dentistry (ABOI/ID), the certifying board that the AAID sponsors, Dr. Rutkowski is the Editor of the Journal of Oral Implantology.

**James W. Fennell, DDS**, a graduate of the Ohio State University School of Dentistry, completed a general practice residency at Womack Army Hospital and served as Officer in Charge of the dental facility at Cooke Barracks, Goppingen, Germany. A graduate of the Midwest Implant Institute, Dr. Fennell is an Associate Fellow of the AAID and a Diplomate of the ABOI/ID and practices general, implant and sedation dentistry in Cincinnati, OH.

**Craig D. Cooper, DDS**, a graduate of Indiana University School of Dentistry, practices in Indianapolis, Indiana. He is a Fellow of the AAID and a Diplomate of the ABOI/ID. Dr. Cooper has extensive experience in implant surgery, concentrating his practice on implant placement for referring dentists. He lectures frequently on implant-related topics.

**Barry Loughner, DDS, PhD**, who graduated from New York University's School of Dentistry, practices in Orlando, Florida. He has an MS degree in Anatomy and a PhD in Neurophysiology, both from the University of Florida. Dr. Loughner is an Adjunct Clinical Associate Professor at the College of Dentistry, University of Florida.

## Course Location

The course will be held at the University of Central Florida College of Medicine, which is on the Lake Nona Campus.

## Hotel Accommodations

Many hotels are located in the Orlando area. Make your reservations at the hotel of your choice. The names of several hotels near the University of Central Florida's Lake Nona campus are available from the AAID office upon request.
